

Cookies Policy

PassNave Kft. would like to send cookies to your computer to improve the user experience gained on <http://mahartpassnave.hu>.

We inform you about how cookies are used in accordance with the EU regulations.

This notice has been created by PassNave Kft. (head office: 1056 Budapest, Belgrád rakpart, International Ship Station, company registration no. 01-09-268781) and its aim is to summarize the most important information about cookies and their use.

Your privacy is important to us and we are committed to protecting your personal information and being open and clear about how we use it. The information below is indicative and helps you to spend an enjoyable time on our websites.

So, what is a cookie?

A cookie is a small text file containing data which is stored on your computer by the request of a website. The purpose of this file is to let websites store what did you do during the time spent on the site. For example, it stores if you clicked on specific links or pages, signed in with a username or read specific pages on the website months or even years ago.

There are several types of cookies and without them the websites would not work the way as you are used to. The websites of PassNave Kft. also use cookies to provide the best possible user experience and they use only the most necessary and useful cookies.

In line with the new regulations, we have listed the types of cookies used on this website, so you can choose whether to keep them, delete the existing ones or block them all.

What type of cookies are on the website of PassNave Kft.?

Cookies can be session cookies (valid only for a browsing session) or permanent cookies. There are also first party and third-party cookies. We explain below the meaning of these terms, so you can better understand the cookies we use and why we use them.

Session cookies (valid only for a browsing session)

The session cookies ensure that you can be recognized during visiting a website, so any page change or selection can be stored in the browser from page to page. These cookies allow you to navigate

through many pages quickly and easily without the hassle to identify yourself on every other page or repeat doing the same things again and again. The session cookies are temporary and expire as soon as you close your browser or when you exit the website.

Persistent cookies

Persistent cookies are stored “permanently” (for a certain period) on your computer, even when the browsing session is over. These allow to store and recall user preferences or actions at a later visit to the website.

Cookies from the website provider

These cookies are from the website and its provider.

Third-party cookies

Cookies can also be first party (internal) or third-party (external) cookies. The internal cookies are set by the PassNave Kft. website you are visiting, while external cookies are set by someone else. PassNave Kft. allows only the use of such external cookies that have been approved in advance.

The files from Google Analytics are used to monitor the webpage and collect information about how visitors use the website. We use the information to compile reports and to help us improve the site. The cookies from Google Analytics store information in an anonymous form, including the number of visitors to the site, and the pages they visited. These files are set by Google Analytics. For further information please visit the following page: <http://www.google.com/analytics>. To disable Google Analytics tracking on all pages, please visit <http://tools.google.com/dlpage/gaoptout>.

The cookies used on the website <http://mahartpassnave.hu/hu> by PassNave Kft. are listed in Annex 1.

Cookie consent

We only place cookies on your computer, mobile or tablet if your consent is granted. You can grant this consent if you press the “Accept” button in the pop-up window about cookies. If you do not want cookies in connection to our website to be placed on your computer, mobile or tablet, the website will most likely not work properly. Even if you initially agree to use cookies, you may choose to disable and delete the cookies in your browser’s settings anytime. However, please be

aware that without using cookies you will not be able to access many features that streamline the browsing experience or some of the features or our services will not work properly.

Cookie setup and removal

If you choose to avoid cookies delete them from your browser's cookie folder. You can also set your browser to block cookies or display a warning message before storing a cookie. These settings are usually available in your browser's "settings" or "preferences" menu. Should you have any further questions, we recommend visiting the 'All About Cookies' site at <http://www.allaboutcookies.org>
